

# Accurate Mileage Capture

MileageCount  
The easy way  
to manage mileage  
while saving  
time and improving  
accuracy

## The easier way to count your miles accurately and easily

**Did you know that around 54% of drivers take over 2-hours to submit their mileage claims, with 10% of drivers taking over 8-hours? MileageCount is here to help...**

How does 6 minutes sound to submit your mileage claim? That's right, with MileageCounts smart technology all the worry and hassle associated with claiming mileage is eliminated.

We know that managing your mileage claims can be a daunting task, but MileageCount automatically tracks every mile of every journey, in any vehicle: accurately, reliably and simply for you.

Making the need for manual logs or laborious mileage processes redundant dramatically reducing the time spent completing claims and admin in your personal time.

MileageCounts user friendly interface is simple and makes mileage claims uncomplicated and quick to submit.

## Advantages you can count on

**Did you know that around 71% of drivers agree that mileage claims are time consuming and laborious with some even submitting false claims? Not anymore with MileageCount...**

MileageCount not only lets you submit your claims quickly and easily it even lets you protect your personal journey information as it gives you the ability to submit only your business miles with your personal journey data visible only to you.

Alleviating the worry of your personal journeys being viewed by management, making MileageCount a less intrusive alternative to similar products on the market.

The risk of error is also greatly reduced as you no longer have to guess unrecorded mileage, or add up multiple long journeys as the data capture is automatic, which means a fast and stress-free mileage submission.

# One mileage capture solution with 4 easy steps

MileageCount makes the process for claiming mileage accurate and easy and in just a few simple steps – saving you hours of paperwork...

4 easy steps: - Record all your journeys for complete accuracy and peace of mind.

1. Record all your journeys automatically using your chosen capturing method
2. Upload your journeys into the online MileageCount portal
3. Review your monthly mileage and, if you wish, protect your private journeys
4. Submit your claim for approval to your manager and that is it. Simple!

## Choose a recording solution that's right for you

MileageCount offers a range of recording options to suit every need...

The solution offers both a iOS or Android app that works with revolutionary iBeacon technology, and offers two styles of iBeacon.

One running on its own battery and the other running directly off the power of your vehicle, giving greater capture capabilities.

You can also use a simple GPS dongle plugged into your car, then into your office or home computer creating a claim in minutes.

71% of drivers say mileage claims are laborious but not with MileageCount. We can improve this with simple automated mileage submission with average submission taking 6 minutes and only 2 minutes for your approver to approve this mileage!

## How to get started with MileageCount

1. Simply contact the MileageCount team on 0844 870 9741
