Easier vehicle checks on your phone. Simpler management online.

Easier service

MyDriveSafe.Expert's comprehensive suite of services includes the ability to: customise checklists, report vehicle defects quickly and look up a vehicle's DVLA information. The App can be used without an internet connection, you can do your checks and then when you get a connection, the data will be transferred.

Easier savings

For just £1 per driver per week, MyDriveSafe.Expert offers numerous cost-saving advantages forming part of your front line defence to help keep your drivers safe. It reduces admin time, records the time taken to perform checks, creates incident/accident reports, and produces a clear audit trail.

Easier security

Security is a key feature of every My Fleet Hub solution, and this is no exception. User cannot go back in and amend once submitted. Vehicle defects are displayed until resolved, which can be a key part of your fleet management to help you ensure that you stay compliant.

- ▶ No hidden start-up fees
- ▶ No long-term commitments
- ▶ No minimum number of vehicles

MyDriveSafe.Expert gives drivers a simple, comprehensive range of checklists, covering almost all vehicles and updated safety standards – all from a smartphone app that's free to download.

It then gives managers the ability to track these checks easily and from anywhere through a user-friendly web portal.

Driver's app

No more paperwork, no more guesswork. The [MyDriveSafe.Expert](#) is the last driver vehicle checklist you'll ever need.

Comprehensive, customisable, helping you to be compliant, it's also completely free* to download and use – for both Apple and Android smartphones. Simply select your vehicle from our database by typing in the registration, choose from one of the industry standard checklist templates for the type of vehicle or create your own, and go. You can then add photos and notes to any item. Once complete, checklist data is uploaded to the Cloud as soon as it detects an internet connection for you or your manager to review via an online portal.

Advantages for drivers

- ▶ Saves time
- ▶ Saves hassle
- ▶ Helps spot problems immediately
- ▶ Notifies your manager automatically
- ▶ Helping you to stay safe and compliant
- ▶ Add/amend checklists

*The app is free to download and the basic vehicle check can be used free of charge. To use the full suite of checklists and manage your fleet online the cost will be £1 per driver per week.

Manager's portal

No more worries about driver or vehicle safety. The [MyDriveSafe.Expert](#) web portal makes it easy to review any number of vehicle checks, so you can resolve issues before they become a problem.

Each vehicle check is uploaded automatically to the Cloud so you can view them all in one clear and user-friendly dashboard. You can link multiple drivers to one vehicle, or one driver to multiple vehicles. It's then easy to view, sort, and highlight your checklist data for each vehicle or driver, with a clear prompt to resolve issues so nothing gets missed. The portal shows all the data you might need, from the length of time taken to complete the checklist to the vehicle's precise location – including a Google Streetview.

Advantages for managers

- ▶ Saves admin
- ▶ Saves worry
- ▶ Help you to keep your fleet compliant
- ▶ Keeps your drivers safe
- ▶ Free updates and support

Required checks

UK law states that all commercial vehicles must be checked daily, inspected regularly, and recorded constantly to ensure they are safe to drive.

MyDriveSafe.Expert makes it easy to do this and helps you to protect your business and ensure you stay compliant. Support for various motoring organisations is included within MyDriveSafe.Expert's templates, so it's easy for your fleet to comply.

New legislation

From the 1st of April 2019, several laws changed that may affect drivers and vehicle usage.

Drivers and managers can relax, as MyDriveSafe.Expert has you covered. The app checklists and web portal are continually revised and updated for free.
