Potential Savings

Our intelligent fleet management solution, **Tele-Gence**, saves you time while offering immediate cost reductions andgreater control of your fleet. As part of **My Fleet Hub**, it allows you to instantly benefit from direct integration of **Fuel Card Services'** fuel card data.

Implementation of **Tele-Gence** can result in efficient fuel management, significantly lower fuel expenses, protection against tackling fuel fraud, improved driver behaviour, reduced miles driven, and more.

The solution offers a wide variety of financial benefits.

What the platform can do for you

Improve driver behaviour and vehicle efficiency

Encourage safer driving	Use **driver behaviour** league tables to reduce spend on fuel andminimise vehicle wear and tear
Monitor excessive speeding	With **overspeed profiles**, see a reduction of refuelling and less vehicle maintenance
Reduce vehicle wear and tear	Use the **dashboard** to monitor driver performance and see improvements with vehicle productivity

Decrease fuel spend

Stop unauthorised fuel card use	**Fuel fraud alerts** notify you in the event of your fuel card being used for unapproved transactions
Highlight vehicle inefficiencies	Gain insight of how well your vehicles are running with **MPG & CO² reports**
Reduce wasted fuel	See where and when drivers are excessively idling using **dashboard and reports**

Increase security and visibility

Real time tracking	Manage your fleet effectively with tracking **updates every 10 seconds**
Be alerted to asset theft	React quickly if disconnection occurs with **device tampering alerts**
Prevent accident liability	Cover your back with **video footage** using our range of cameras
Prevent unauthorised use	Get **out of hours alerts** in the event of vehicles driven for prohibited use to prevent further vehicle wear and tear

Automate and streamline administration

Reduce repetitive admin tasks	Free up your time producing admin paperwork with **scheduled reports** including **time sheets**
Save time	Set up **alerts** and be notified immediately to reduce time spent sifting through data
Quickly highlight anomalies	**Dashboard analytics** flags anything that is unusual to increase fleet management control

Integrating your fuel data with live tracking enables in-depth reporting, allowing you to make better business decisions while running a more efficient fleet. We understand the matters you may face managing a fleet daily, but, by implementing **Tele-Gence**, we can help you have better control over your fleet.
